MaxiDose Food 42 snap-on

Adding value by valve solutions

MaxiDose Food 42 snap-on

Adding value by valve solutions

Consumer convenience and optimised functionality were the key challenges for the development of this dispensing closure with valve function. The MaxiDose Food 42 snap-on offers a fully controlled and clean dispensing. The special design of the valve covers a very wide range of Food applications and offers a dispensing solution for almost all varieties of sauces and dressings. The closure is fitted with the **MaxiDose technology**, a patented valve technique developed by WP.

The closure has a snap-on application and tamper evident function. The tear-off strip can be easily removed before first use. The valve opens gradually whilst squeezing the bottle and offers a fully controlled dispensing. As soon as the pressure is released, the orifice is closed off immediately. No drips. No mess. No clogging. An ever clean orifice is guaranteed!

MaxiDose technology

WP developed a proprietary silicone valve solution with a patented technique. The silicone material has a memory for long term seal quality and the opening/closing mechanism. Good temperature resistance is another advantage to give excellent dispensing opportunities for a wide range of viscosities and product applications.

Unique Benefits

- Cost-effective solution
- Continuously controlled dispensing
- Optimised functionality
- Easy to open
- Visual tamper evident function
- Valve and non-valve orifices available
- Suitable for many different viscosities
- Wide array of bottle geometries possible
- Top-down use feasible

Specifications

- Outside dimension: 41.6 mm
- Neck finish: 39 mm snap-on
- Suitable for PET and PP/PE bottles
- Orifices:
 - For PET bottles: valve
 - For PP/PE bottles: 4 mm and valve
- Valve diameter: 11 mm
- Tamper evident function
- Material PP
- High gloss surface finish
- Almost infinite range of colours
- Suitable for Food applications
